

AttendTrack

AI-Powered School Attendance Management

The Problem

UK schools lose 150+ staff hours per year manually checking voicemails, cross-referencing absences, and chasing unexplained non-attendance.

- 30-80 students absent daily
 - 20+ voicemails to process each morning
 - Manual gap detection takes 45-90 minutes
 - Patterns go unnoticed until it's too late
 - Ofsted inspections require audit trails
-

The Solution

AttendTrack automates attendance tracking in 30 seconds.

Manual Process	With AttendTrack
Listen to 20+ voicemails	AI transcribes automatically
Cross-reference with MIS	One CSV upload syncs all data
Hunt for unexplained absences	Gaps flagged instantly
Spot patterns manually	AI detects trends over time
Create Ofsted reports	One-tap report generation

Key Features

AI Voicemail Transcription

Parents call in, AI transcribes and logs the absence automatically.

Instant Gap Detection

Upload your MIS absent list → see who has NO explanation in seconds.

Pattern Recognition

“Toby has been absent every Monday for 4 weeks” — flagged automatically.

Mobile App (PWA)

UK's first AI attendance app. Install in 5 seconds, works on any device.

One-Tap Ofsted Reports

Complete audit trail generated instantly for inspections.

AI Intervention Advice

Personalised recommendations based on each student's attendance history.

ROI Calculator

Metric	Value
Time saved per year	150+ hours
Staff cost savings	£3,000+
Annual investment	£4,428
Net savings	£10,322
ROI	333%

Pricing

PROFESSIONAL — £369/month

- Single school
- All features included
- Unlimited users

TRUST EDITION — £289/school/month

- Volume discounts for 5+ schools
- Trust-wide dashboard
- Cross-school reporting

Why Schools Choose AttendTrack

- ✓ **28-63% cheaper** than competitors
- ✓ **Only AI-powered** solution in UK
- ✓ **No setup fees** — go live in 1 day
- ✓ **Works with any MIS** (SIMS, Arbor, Bromcom)
- ✓ **GDPR compliant** — UK data centres only
